

Very very very very commonly used idioms...

발이 넓다

It literally means one's foot is wide, however it is rarely used that way unless you specifically talk about one's feet. It is used when one knows lots of people.

너의 친구는 발이 정말 넓은 것 같아.

Your friend seems to know lots of people.

손이 크다

It literally means your hand is big. It can be used in a literal way too. In many cases, it is used to refer to an open-handed person.

내 친구는 손이 정말 커. 요리할 때마다 엄청나게 해.

My friend is very generous. Whenever he cooks, he does a lot (more than enough)
